

Environmental Policy Statement

VECTOR CUATRO Group has developed the present **Environmental Policy Statement**, which applies to all Vector Cuatro companies and its employees, facilities and all people using its facilities as a workplace.

Renewable energy is, for us, a crucial way to de-carbonize our planet: a commitment that is in the best interests of our customers, our employees, our contractors, our shareholders, the future generations, and all the communities in which we live and work.

As a global company providing services related to renewables industry, we believe in creating at the same time business value and value for local communities, while preserving the environment: our goal is to be both sustainable and among the best players in the renewable energy business.

For these reasons, this policy shows the **commitment** of VECTOR CUATRO Group's management to:

- Observe and comply with all environmental statutory requirements within our area of operations;
- Mitigate the consequences of all types of incidents/accidents having potential harmful effect on the environment, considering the adoption of best available techniques, where applicable;
- Minimize our impact on the environment through pollution prevention, reduction of natural resource consumption and emissions, and the reduction/recycling of waste, under a Life Cycle Perspective;
- Apply our technical skills to all environmental aspects in the design and engineering of our services;
- Establish and preserve good relations with local communities based on a constructive mutual dialogue with regulators, community representatives, local authorities, as well as other stakeholders about matters of common interest;
- Provide training and contribute to develop a QHSE mind-set to raise awareness in every single person at our Company, from top management involvement to worldwide personnel daily activities;
- Continuously improve our performance in all areas of Quality, Health, Safety and Environment throughout the Group, also by internally sharing our best practices.

VECTOR CUATRO Group is also committed to review and revise this policy as necessary at regular intervals, as well as to make it available to all employees and parties concerned. This way, this Policy provides the essential framework for the establishment and revision of environmental objectives and goals.

Javier Asensio Marín, CEO
